INDEPENDENT AUDITORS' REPORT

Board of Directors Temecula Elsinore Anza Murrieta Resource Conservation District Temecula, California

Opinion

We have audited the accompanying financial statements of the governmental activities and the General fund of Temecula Elsinore Anza Murrieta Resource Conservation District, as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of Temecula Elsinore Anza Murrieta Resource Conservation District, as of June 30, 2023, and the respective changes in financial position for the fiscal years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Temecula Elsinore Anza Murrieta Resource Conservation District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Prior-Year Comparative Information

The financial statements include partial prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2022, from which such partial information was derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a separate report dated January 31, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2023

This discussion and analysis of Temecula Elsinore Anza Murrieta Resource Conservation District's financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2023. Please read it in conjunction with the District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- The net position of the District increased by \$57,323, or 3.66% during the fiscal year.
- In 2023, total revenues were \$424,934 and total expenses were \$367,611.
- There were no additions to capital assets during the year, and there was no depreciation expense.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide financial statements* that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the District, reporting the District's operations in more detail than the district-wide statements.
 - The *governmental funds* statements tell how basic services were financed in the short term as well as what remains for future spending.

The financial statements also include notes that some explain of the information in the statements and provide more detailed data. Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain.

Figure A-2. Major Features of the District-Wide and Fund Financial Statements

Type of Statements	District-Wide	Governmental Funds
Scope	Entire district, except fiduciary activities	The activities of the district that are not proprietary or fiduciary
Required financial statements	 Statement of Net Position Statement of Activities 	 Balance Sheet Statement of Revenues, Expenditures & Changes in Fund Balances
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long- term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter

The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2023

OVERVIEW OF THE FINANCIAL STATEMENTS (continued)

District-Wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how it has changed. Net position – the difference between the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources – is one way to measure the District's financial health or position.

- Over time increases and decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating.
- To assess the overall health of the District, you need to consider additional nonfinancial factors, such as the amount of building construction in the area, and the political climate affecting conservation.
- In the district-wide financial statements, the District's activities are categorized as *Governmental Activities*. Most of the District's basic services are included here, such as mitigation, public outreach and partnering with similar groups and agencies seeking to protect local watersheds.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants.

The District has two funds, the General Fund and Permanent Fund.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2023

ORGANIZATION STRUCTURE

The District was formed in 1949 under Public Resource Code Section 9074-9801 of the State of California. The District's mission is to promote conservation practices of natural resources, opportunities for public education and participation, and a sustainable quality of life for communities within the District. The District's territory includes 505,000 acres, or approximately 789 square miles, extending south from Scott Road in Menifee to the San Diego County line, and from the east of Anza west to the Orange County line. It also includes the loop around the north of Lake Elsinore. The District accepts many forms of mitigation to allow projects to run smoothly through the permitting process and promote a healthy environment for the respective communities.

Total revenues	424,934	231,917	193,017
EXPENSES			
Program expenses	336,461	94,808	241,653
Administrative expenses	31,150	31,930	(780)
Total expenses	367,611	126,738	240,873
Change in net position	57,323	105,179	\$ (47,856)
NET POSITION			
Beginning of year	1,568,280	1,463,101	105,179
End of year	\$ 1,625,603	\$ 1,568,280	\$ 57,323

Changes in net position, governmental activities. The District's total revenues increased 83.23% to \$424,934 (See Table A-2). The increase is primarily due to the increase in RCFC pilot projects income in fiscal year 2023.

The total cost of all programs and services increased 190.06% to \$367,611. The increase is due to increased program costs for the RCFC pilot projects.

General Fund Budgetary Highlights

While the District's adopted final budget for the General Fund anticipated revenues would exceed expenditures by \$54,544 the actual results for the year show that revenues exceeded expenditures by \$49,645. Actual revenues were \$323,781 more than budgeted, but expenditures were \$328,680 more than planned.

Management's Discussion and Analysis (Unaudited) For the Fiscal Year Ended June 30, 2023

CAPITAL ASSETS

By the end of fiscal year 2023 the District had invested \$747,750 in capital assets. (More detailed information about capital assets can be found in Note 5 to the financial statements).

FACTORS BEARING ON THE DISTRICT'S FUTURE

The District will continue to work with the communities of Lake Elsinore, Wildomar, Murrieta, Temecula, and Anza by providing education and mitigation services, protection of resources and the watershed through building stronger partnerships within the District's boundaries.

The District anticipates future revenue streams in partnership with the Santa Ana Watershed Association (SAWA), state grants and by accepting and monitoring new easements.

This and other factors were considered in preparing the Temecula Elsinore Anza Murrieta Resource Conservation District budget for the 2022-23 fiscal year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Teri Biancardi at teri.biancardi@teamrcd.org.

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balance to the Government-Wide Statement of Activities and Changes in Net Position For the Fiscal Year Ended June 30, 2023

There were no differences between the total net change in fund balances-governmental funds and the change in net position of governmental activities.

Notes to Financial Statements June 30, 2023

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Temecula Elsinore Anza Murrieta Resource Conservation District (the "District") accounts for its financial transactions in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. The following is a summary of the more significant policies:

A. Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, and agencies that are not legally separate from the District. For Temecula Elsinore Anza Murrieta Resource Conservation District, this includes the General and Permanent Funds.

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District, in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization's relationship with the District is such that exclusion would cause the District's financial statements to be misleading or incomplete.

The District has identified no organizations that are required to be reported as component units.

B. Basis of Presentation, Basis of Accounting

1. Basis of Presentation

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through developer fees.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities. The District does not operate any proprietary funds.

Notes to Financial Statements June 30, 2023

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation, Basis of Accounting (continued)

1. Basis of Presentation (continued)

Governmental Funds

The District maintains the following major governmental funds:

General Fund: This fund is used to account for and report all financial resources not accounted for and reported in another fund.

Permanent Fund: This fund is used to account for principal and interest related to endowments paid to the District as part of easement agreements.

2. Measurement Focus, Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Governmental Fund Financial Statements

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Expenditures are recorded when the related fund liability is incurred. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and financing from capital leases are reported as other financing sources.

3. Revenues - Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year. Generally, available is defined as collectible within 60 days.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

C. Budgetary Data

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all government funds. By state law, the District's governing board must adopt a tentative budget no later than July 1 and adopt a final budget no later than October 1. A public hearing must be conducted to receive comments prior to adoption.

Notes to Financial Statements June 30, 2023

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Budgetary Data (continued)

The District annually adopts a budget based on estimated revenues, estimated operation expenses, and capital expenditure requirements. The District's policy is to prepare its budgets on the modified accrual basis of accounting, which recognizes revenues when they are accrued, and expenses and capital assets are recorded as expenditures, and depreciation is not recorded.

D. Encumbrances

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when the commitments are paid. All encumbrances are liquidated as of June 30.

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

1. Cash

The District's cash consists of cash on hand, demand deposits and short-term investments with original maturities of less than 90 days from the date of acquisition.

2. Investments

Investments consist of certificates of deposits with average maturity date of 90 days or more from the date of acquisition. Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value.

In accordance with fair value measurements, the District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities recorded on the balance sheet are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds. The District has the ability to access the holding and quoted prices as of the measurement date.

Level 2 – Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.

Level 3 – Inputs that are unobservable. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment, and is based on the best information available in the circumstances.

Notes to Financial Statements June 30, 2023

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

3. Accounts Receivable

Accounts receivables represent amounts due to the District as of fiscal year end from conservation services rendered and interest.

4. Prepaids

Prepaid expenses arise when the District has paid for an expense, but the corresponding goods or services have not been received at the end of the fiscal year.

5. Capital Assets

The accounting and reporting treatment applied to the capital assets associated with a fund is determined by its measurement focus. Capital assets are reported in the government-wide statement of net assets, but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their estimated fair market values as of the date received. The District does not currently define a threshold for capital assets. However, these assets are estimated to have an initial, individual cost of more than \$500 and an estimated useful life in excess of two years. Capital assets are depreciated during the expected life of the asset on the straight-line method. The District does not own any infrastructure as defined in GASB No. 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method.

As of June 30, 2023, the Organization has no depreciable assets.

6. Unavailable Revenue

Unavailable revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unavailable revenue is removed from the combined balance sheet and revenue is recognized.

Notes to Financial Statements June 30, 2023

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

8. Fund Balance Reserves and Designations

Fund balance reporting for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Some governments may not have policies or procedures that are comparable to those policies that underlie these fund balance classifications and therefore would not report amounts in all possible fund balance classifications.

Nonspendable: The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example, revolving cash, inventories, and prepaid amounts.

Restricted: Fund balances should be reported as restricted when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Unassigned: Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

9. Net Position

Net position is classified into three components: investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

- **Investment in capital assets** This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation.
- **Restricted** This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position -** This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted".

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Notes to Financial Statements June 30, 2023

NOTE 2 - CASH AND INVESTMENTS

Cash and investments at June 30, 2023, are reported on the statement of net position as follows:

Description		Balance
Cash and cash equivalents	\$	427,147
Restricted – cash and cash equivalents	98,245	
Restricted – investments		290,000
Total cash and investments	\$	815,392

Cash and investments at June 30, 2023, consisted of the following:

Description		Balance
Demand deposits with financial institutions Certificates-of-deposit	\$	525,392 290,000
Total cash and investments	\$	815,392

Demand Deposits

At June 30, 2023, the carrying amount of the District's demand deposits was \$525,392 and the financial institution balance was \$531,828. The net difference represents outstanding checks, deposits-in-transit and/or other reconciling items.

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. Cash balances held in banks are insured up to \$250,000 by the Federal Depository Insurance Corporation (FDIC) and are collateralized by the respective financial institutions. In addition, the California Government Code requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit).

The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. Cash balances in banks as of June 30, 2023, are fully insured by the Federal Depository Insurance Corporation.

Cash and Investments

Cash and investments are reported at fair market value. The District considers certificates of deposit with a maturity date of 90 days or longer to be investments.

Authorized Investments

The investment policy adopted by the District is summarized as follows: "The District shall invest public funds in a manner which will safeguard principal, meet liquidity and achieve return on investments as referenced in government code section 53600.5." All investments of the District shall conform to the requirements of applicable law and policy, whichever is more restrictive.

Notes to Financial Statements June 30, 2023

NOTE 2 - CASH AND INVESTMENTS (continued)

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flows and liquidity needed for operations.

Maturities and fair value of investments as of June 30, 2023, are as follows:

						Maturity
	Measurement	Credit	<u>J</u> un	June 30, 2023		Months or
Type of Investments	<u> </u>	Rating	Fa	air Value		Less
Certificates-of-deposit	Level 2	N/A	\$	290,000	\$	290,000
Total investments			\$	290,000	\$	290,000

NOTE 3 - ACCOUNTS RECEIVABLE

Accounts receivable as of June 30, 2023, consisted of the following:

Customer	B	Balance		
Riverside County Flood Control and Water Conservation District	\$	49,027		
Rancho California Water District		5,350		
Santa Ana Watershed Association		5,297		
Total accounts receivable		59,674		

NOTE 4 - INTERFUND TRANSFERS

The District transferred interest earnings of \$4,905 used for operations from the Permanent Fund to the General Fund during the fiscal year.

NOTE 5 - CAPITAL ASSETS AND DEPRECIATION

Capital assets activity for the year ended June 30, 2023, is shown below:

	Balance, y 1, 2022	Addi	dditions		Retirements		Balance, June 30, 2023	
Capital assets not being depreciated:	 							
Land	\$ 475,000	\$	-	\$	-	\$	475,000	
Greer Ranch easement	110,000		-		-		110,000	
Adeline Farms/Benton Channel easement	162,750		-	_			162,750	
Total capital assets not being depreciated	\$ 747,750	\$	-	\$	-	\$	747,750	

Notes to Financial Statements June 30, 2023

NOTE 5 - CAPITAL ASSETS AND DEPRECIATION (continued)

Easements:

A. Greer Ranch Community

In October of 2009, the District executed an agreement with Lennar Greer Ranch Venture, LLC, granting a conservation easement, in perpetuity, over property known as "Greer Ranch Community". The purpose of the Conservation Easement is to ensure the property will be preserved in a natural condition, in perpetuity, for gnatcatcher, vireo and other wildlife conservation, and to prevent, subject to the duties and rights retained by Grantor, any other use of the property that will impair or interfere with the conservation values of the property. The District is responsible for monitoring for compliance with this conservation easement and in-perpetuity, ongoing, long-term maintenance and management of the property.

B. Adeline Farms/Benton Channel

In 2007, the District executed an agreement with Shea Homes Limited Partnership granting a conservation easement over property known as "Adeline Farms". The purpose is to ensure the property will be retained in a natural condition and to prevent any use of the property that will impair or interfere with the conservation values of the property. In 2019, the easement name was changed to "Benton Channel".

NOTE 6 - CASH RESTRICTED FOR SPECIFIC PROGRAMS

The District accepted funds from a series of private development projects in the Murrieta and Temecula areas, which need offsite mitigation credit for permanent impacts to U.S. wildlife, open spaces, and watershed lands that is deemed appropriate and acceptable by the resource and regulatory agencies of \$98,000 as of June 30, 2023.

The District accepted endowment funds from Lennar Greer Ranch, LLC, a land developer, which will be used to maintain the Greer Ranch Conservation Easement associated with approximately 250 acres at Lennar's Greer Ranch residential community in the City of Murrieta, California in the amount of \$125,000.

The District accepted endowment funds from Shea Homes, a land developer, the income from which will be used, to maintain a conservation easement on the property marketed as the Benton Channel, in the vicinity of Washington Street and Benton Road, just west of Lake Skinner, in the French Valley area, in the amount of \$75,000.

The District accepted endowment funds from Pulte Homes, a land developer, the income from which will be used, to maintain a conservation easement on the property marketed as the Benton Channel, in the vicinity of Washington Street and Benton Road, just west of Lake Skinner, in the French Valley area, in the amount of \$90,000.

Description	Investment					T-4-1	
Description		Endowment		Earnings		Total	
Private development projects	\$	98,000	\$	245	\$	98,245	
Lennar Greer Ranch, LLC		125,000		1,268		126,268	
Shea Homes		75,000		761		75,761	
Pulte Homes		90,000		913		90,913	
Total restricted assets for specific programs	\$	388,000	\$	3,187	\$	391,187	

Notes to Financial Statements June 30, 2023

NOTE 7 - FUND BALANCES

The District's fund balances are designated as follows:

Description	General Fund	Permanent Fund	Total Governmental Funds	
Nonspendable:				
Prepaid items	\$ 3,686	\$ -	\$ 3,686	
Restricted:				
Nonexpendable endowments	-	388,000	388,000	
Expendable for mitigation projects		3,187	3,187	
Total restricted		391,187	391,187	
Unassigned	482,980		482,980	
Total fund balances	\$ 486,666	\$ 391,187	\$ 877,853	

NOTE 8 - RISK MANAGEMENT

The District is insured under a plan managed by the Special District Risk Management Authority for commercial general liability in the amount of \$2,500,000.

NOTE 9 - COMMITMENTS AND CONTINGENCIES

Excluded Leases - Short-Term Leases and De Minimis Leases

The District does not recognize a lease receivable and a deferred inflow of resources for short-term leases.

Short-term leases are certain leases that have a maximum possible term under the lease contract of 12-months (or less), including any options to extend, regardless of their probability of being exercised.

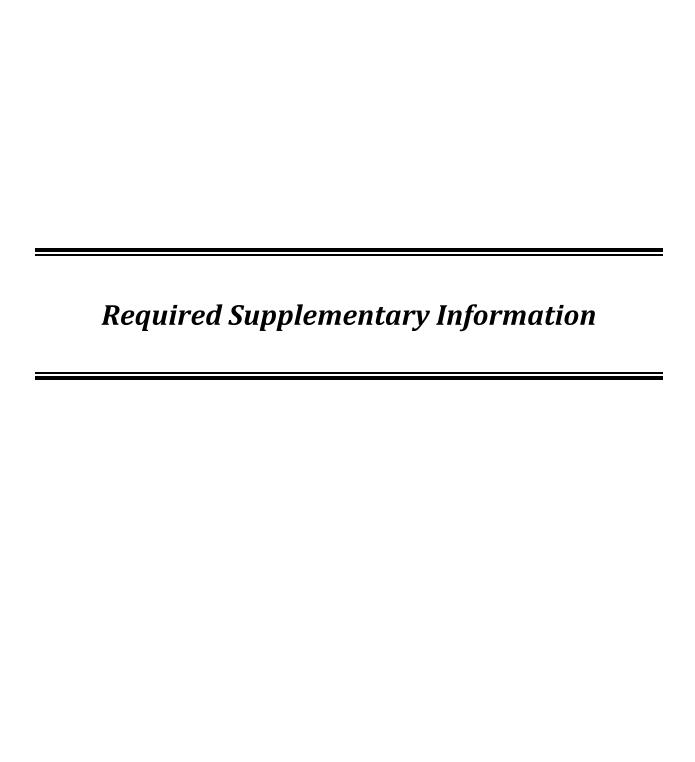

Also, de *minimis* lessor or lessee leases are certain leases (i.e., room rental, copiers, printers, postage machines) that regardless of their lease contract period are *de minimis* with regards to their aggregate total dollar amount to the financial statements as a whole.

Litigation

The District is involved in routine litigation incidental to its business and may be subject to claims and litigation from outside parties. After consultation with legal counsel and/or management, management believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

NOTE 10 - SUBSEQUENT EVENTS

The District has evaluated subsequent events through January 31, 2024, the date which the financial statements were available to be issued.

Notes to the Required Supplementary Information For the Fiscal Year Ended June 30, 2023

NOTE 1 - PURPOSE OF SCHEDULES

Budgetary Comparison Schedule

This schedule is required by GASB Statement No. 34 as required supplementary information (RSI) for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedule presents both (a) the original and (b) the final appropriated budgets for the reporting period as well as (c) actual inflows, outflows, and balances, stated on the District's budgetary basis. A separate column to report the variance between the final budget and actual amounts is also presented, although not required.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Temecula Elsinore Anza Murrieta Resource Conservation District Temecula, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General fund of Temecula Elsinore Anza Murrieta Resource Conservation District (District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 31, 2024.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
